🌐 Portfolio

Objective

Dedicated and innovative Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, aiming to apply technical expertise in AI, automation, and robotics to develop impactful solutions for real-world challenges.

Education

B.E. Computer Science and Engineering (AI & ML)

K.S. Rangasamy College of Technology, Namakkal

2025 – 2029

CGPA: 8.69 / 10

Technical Skills

Programming: Python, C

AI/ML Technologies: TensorFlow, OpenCV, Natural Language Processing

Web Technologies: HTML, CSS, JavaScript

Database: MySQL, ChromaDB (Vector Database)

Tools: Git, GitHub

Interests: Robotics, Web Development, Sustainable Farming, Chatbots

Projects

Multi-Modal TB Detection – AI Medical Imaging System

- Developed a multimodal deep learning system using TensorFlow and OpenCV to detect tuberculosis (TB) from chest X-ray images and clinical data.
- Implemented image preprocessing, feature extraction, and classification pipelines to support early-stage TB diagnosis.

Veera – AI-Powered Real-Time Voice Assistant

- Built an AI-powered voice assistant capable of understanding user commands through natural voice interaction.
- Integrated NLP modules for intent recognition and context-aware responses.
- Deployed the application on mobile devices for real-time and low-latency performance.

Collabent – AI Powered Collaboration Platform

- Developed an AI-powered collaboration platform that connects innovators, developers, designers, and entrepreneurs to transform ideas into real-world projects.
- Implemented intelligent matching features to help users discover teammates based on skills, interests, and project requirements.
- Designed collaboration workflows to support project management, team building, and startup development efficiently.

Activities

- Participated in a Generative AI Workshop conducted at Kongu Engineering College.
- Presented a research paper on Smart Farming at Sri Eshwar College of Engineering.
- Successfully completed a 30-day Hands-on Training Program in Artificial Intelligence conducted by NOVITECH.

Certifications

- Python Essentials
- Artificial Intelligence Fundamentals
- C Programming
- Digital Edge
- Data Analytics

Languages

- Tamil
- English
- Kannada
